Q

Re' Resolution No XV of the proceedings of I.T. Board at their meeting held on the 30th day of June last.

I beg to refer to the matter & the Chairman at once requesting that the further action be taken in the matter of changing the name in question from that of certain information from him.

2) It was the intention of the Board from the very first that the whole site in question should be reserved for the purpose of having a market - & the Board's market has not at present entrance & the widening of Church Street which is much required people who have offered for the site in favour to me as Chairman have agreed that the second - It is necessary should that the Board should have their buying/selling of the site in question finally & the two applications & their meeting. The Board should be asked & reconsider

NB —Should routine notes be written on small slips, the notes must be copied or slips pasted on this form.

To The Chairman
Mysore City Improvement Trust

Sir,

With reference to the 7 B Resolution No XI, dated the 30th November 1912, I am directed to state as follows —

The site alienated by the Resolution in favour of two private individuals had been originally set apart for the construction of a market for the convenience of the residents of Chamaraj and Krishnaraj Mohallas, the situation of the existing Devaraj Market being too remote thence

SUBJECT

Nothing has since come to the knowledge of the Government to show why and where that understanding under which such radical modifications as that now discussed by the Resolution in question from the standpoint of public convenience many cogent arguments might be urged against any material variation of the original plan. For instance, the policy of segregating a limited area for purposes of the market without reserving power upon these may lead to the difficulty of expanding the building whenever necessary and deprive the people that resort to the market of the benefits of fresh air. Again, the beauty of the locality might be seriously impaired by the method of sectioning the site into small ones and disposing of them for ordinary house-building. To these other objections might be added, but the present purposes will be

List of enclosures,

Examined by

GPO—10,000—23-8-11.

GRS 27]

GENERAL AND REVENUE SECRETARIAT

(Continuation sheet draft form)

Sufficiently served by means of inviting attention to the chief ones.

Even assuming that the sites have been sold for reasonable prices to the two individuals concerned, the Govt. considers that in view of the special importance of Mysore city and the real inconvenience of the residents of two of the most important mohallas, considerations other than those of profit ought to weigh more in the settlement of the question

In these circumstances I am directed to request you to defer the execution of the Resolution in question until further consideration and to forward a report to the Govt. on the subject in all its aspects together with a copy of the plan referred to in the Resolution

I have &c

MYSORE CITY IMPROVEMENT TRUST BOARD
CHAIRMAN'S OFFICE,
Dated, Mysore, 8 March *1913*.

From

L.Chandy, Esq., B.A.,
Chairman of the Board of Trustees,
Mysore City Improvements

To

K.R.grinivasa Iyengar, Esq., M.A.,

Secretary to the Govt. of H H the Maharaja
of Mysore, Gen and Rev Departments

Sir,

R With reference to your letter No.5418 dated the 24th ultimo, conveying certain observations regarding the resolution No.XI of the Trust Board dated the 30th November 1912 in the matter of disposal of certain site to the south of the Vani Vilas Road in Block No.81 Krishnaraja Mohalla, Mysore City, I have the honour to state that from a review of the minutes of the Board from its formation, I find that beyond the exception of the idea that the said site was to be used for a market, no active and definite steps appear to have been taken in fulfilment of the same.

2. As an experimental measure, however, a few zinc sheet stalls were put up on the site in the year 1910, and the right to collect the isarah from vendors there, was sold by auction by the Municipality, but nothing resulted therefrom in the direction of the developement of the scheme. Dealers in vegetables and other food stuffs would not resort to the place, in spite of restrictions put upon them to sell their commodities by the road side. The market thus experimentally created has not been of any use and has shared the same fate as those built in Krishnaraja Mohalla to the north-east of Subbrayanakere and the Weavers' Lines and since abandoned.

6

3. The chief causes that have had and will continue to have in my opinion, deterrent effects on the success of establishing a market at the locality under reference are (i) its proximity to the Chikangadi Beedi, the long recognised quarter for -- marketing business. This street is only within a distance of -- about one furlong to the north. Established custom naturally takes people to their previous dealers. (ii) The existence of another mart within about the same distance to the east and south of the said site, known to be the cheapest one for buying vegetables and other greens, and (iii) The comparatively out-of the- way situation of the site in question, which does not directly border either the Chetnahally or the Nanjangude Road through which supplies of various sorts are brought into the City.

4. Further, the conditions that might have originally suggested the suitability of the site in question for a market -- place do no longer remain the same. A new extension to the south-east of the above site known as the Hatchanahalli road Extension is under formation for the use of the mixed classes to be displaced in the Krishnaraj and Devaraj Mohallas under Government Order No. 3842-7/M1.80-10 dated 28th November 1912. The present Chetnahalli Extension is likely to undergo in the same direction a further expansion towards the Ganigarahundi, owing to the acquisition of the Pendarwadi near the Seethavilas Tope for the purposes of the Palace Department, also sanctioned by Government. The Chikangadi Beedi within a short distance in Blocks Nos.78, 79 and 69 B will before long be relayed and rendered more commodious with the demolition of the existing insanitary houses comprised in the scheme forwarded for the sanction of Government with this office letter No. [illegible] dated 28th February 1923.

5. The accompanying plan shows the locality of the several extensions formed and are under formation at the southern side of the City, indicating also by distinct colours and marks the classes of people occupying each extension.

6. There are other plots of land more advantageously situated for the above purpose and with more extensive accommodation. The one marked green on the plan to the east of the paddy hulling measures about 5,030 square yards and another marked red to the south of the southernmost 100 feet road measures about 4,190 square yards against 2,755 yards which form the extent of the present site. In view, therefore, of the existence of more convenient and desirable sites for a market, the one under reference was found superfluous for being reserved for the purpose. Consequently under powers vested in them by Section 25 (2) of the City of Mysore Improvement Regulation, the Trust Board resolved in their meeting dated the 30th November 1912 to allot the site in question into two convenient bungalow sites as marked on the accompanying ferro type copy of the plan and sell the same respectively to Messrs. T.S.Siddappa and Anantaramiengar, two of the Medical Officers of the Mysore State to enable them to build decent bungalows as per approved plans. In thus allotting the site, sufficient space covering about 400 sq yards has, however, been reserved for a vegetable and fruit market.

7. Regarding the observation that the splitting of the site in question for ordinary house building impairs the beauty of the locality, I beg to submit that the sites as divided are not intended for ordinary dwelling houses, but are for decent cottages, the one marked A measuring $\frac{110+105}{2} \times \frac{134+98}{2}$ or 1,386 square yards and that marked B measuring $\frac{110+105}{2} \times \frac{98+64}{2}$ or 968 square yards. The construction of cottages on the sites thus allotted will, in my opinion, rather tend to enhance than mar the beauty of the locality, being in keeping with the already existing cottages westwards on either side of the Vani Vilas Road and those to spring up later on eastwards, with the proposed clearances in blocks Nos.80, 82, 83 known as Hale Agrahar, included in the comprehensive programme of works approved by Government for the next and ensuing years.

8

Under the above circumstances, I would request Government to kindly reconsider their orders conveyed in your letter under reply, and ratify the resolution of the Board in the matter

I have the honour to be,

Sir,

Your most obedient servant,

K Chandy

Chairman
